Members of the AMC-SEM chapter can receive a free club membership on RideWithGPS which can provide turn by turn navigation on AMC-SEM club routes. The app can be used to track your miles, to record, post, and share your routes, and to select one of nearly 200 AMC-SEM club routes to follow with GPS turn-by-turn navigation cues and more!

There are a few steps to getting signed up for and using your free AMC-SEM club membership.

First, on your computer or laptop, sign up for a free RidewithGPS account at the RidewithGPS website. <https://ridewithgps.com/>

Next, join the AMC-SEM club by clicking the auto approval link below

You will be prompted to enter your name and email. When you sign up for the AMC-SEM club, the Biking Chair will be notified by RidewithGPS and will provide the approval.

The following link provides Phone App download links and information on some of the features of club membership: <https://ridewithgps.com/help/club-member-benefits>

Finally, download the RidewithGPS app on your smartphone and log in using the same RidewithGPS account credentials you provided on the website. You should see the AMC-SEM club listed on your home screen in the RidewithGPS app. Clicking on the club, then *Organization routes* will show all the rides where you can get navigation assistance.

Please remember to join the SEM Chapter club, once you create a free RidewithGPS account. Your AMC-SEM club membership provides paid RidewithGPS account privileges to your free RidewithGPS account when navigating on club routes, but only on those club routes. Other non club routes will not allow on-bike navigation.

This is an \$80/yr value that is free to those who are members of AMC-SEM. This more than covers your AMC membership. Please promote this to your biking friends. Join and get a club membership to RideWithGPS for free!
