

"Winter Hiking" Series

Saturdays from December thr. March

The Winter Hiking Series is designed for people brand new to winter hiking, but are comfortable with 3-season hiking. It is a series of four progressively more challenging winter hikes on the first Saturday of each month from December to March. The last hike of the series is an overnight in one of the AMC White Mountain Huts.

As a prerequisite you will need to attend the SEM Winter Hiking Workshop where we will go over the basics of winter hiking including necessary clothing and gear. The workshop is held on the first Saturday of November.
